SERVICE DEPARTMENT

- **DO NOT PUT GREASE, FATS OR OILS DOWN THE DRAIN, EVEN WITH HOT WATER!** These substances will harden and create a nasty blockage in your sanitary line and/or the main sanitary line. The hot water only temporarily heats it up and liquefies the grease. As the air temperatures have recently cooled, we are seeing more backups caused by fats, oils and grease being poured down the drain. This will cause sanitary lines to back up and cause a stinky mess in your home. To properly dispose of these items let them cool and congeal in the pan. Scrape as much as you can into the garbage and then wipe off what remains with a paper towel. This little extra work is minor compared to a sewage backup!
- **PLEASE HELP KEEP OUR NEIGHBORHOODS SAFE!** Criminals are on the lookout for properties that are poorly lit and offer the cover of darkness to gain undetected entry to a home. Please replace burned out light bulbs in lamp posts to illuminate your property.
- **THANK YOU!** There has been a noticeable improvement in our sanitary sewer system due to residents not flushing so called "flushable" wipes down toilets. The decreased use of "flushable" wipes has alleviated many clogging issues in the pump stations. We appreciate your continued cooperation!
