City/State/Zip _____ Name of Business (if applicable) _____

As the waterproofing contractor for the work to be performed at: _____
_____, Broadview Heights, Ohio 44147.

Have explained to the owner of the property that they need to hire an electrical contractor to perform the electrical work on the sump pump for the waterproofing job. The homeowner has been advised that if they are going to do the electrical installation themselves or hire an electrical contractor that a permit must be pulled through the City of Broadview Hts. Building Department. If using a licensed electrical contractor to do the work, they must be registered with the City of Broadview Heights. If the electrical permit is changed for any reason the applicant (homeowner or electrical contractor) must notify the building department at building@broadview-heights.org or call at 440-526-6864 starting the name of the new registered contractor doing the work.

If the property owner names and hires their own electrical contractor or if the homeowner does the electrical work as the contractor taking out the permit, I the waterproofing contractor will not be liable for the electrical work done for the sump pump.
